## Connecting to a device

**Note: Source for HDMI USB.**

## Projector Placement and Installation

**Whether the way you choose to project your images or videos, please keep these suggestions in mind:**

1. Ensure the place you set the projector is sturdy and even;
2. Do not block the vents and always leave enough space for heat dissipation;
3. If the way you project is from the ceiling or from the rear, please ensure to select the correct projection option in the menu system.
